Dear Mr. Wegrzyn:

Please find enclosed inserts for the final Phase I RFI/RI Work Plan for Operable Unit (OU) 9, Original Process Waste Lines, dated February 1992. The inserts include the revised Environmental Evaluation (EE) Work Plan discussed in our February 28, 1992 transmittal letter for this RFI/RI work plan.

We request that the U S Fish and Wildlife Service and Colorado Division of Wildlife provide DOE/RFO comments on the revised EE work plan by April 13, 1992. This revision is based on the Rocky Flats Plant Risk Assessment Technical Working Group meeting held on February 21, 1992. The reason for this request is that EEs are required for the RFI/RI work plans for industrial area OUs 8, 10, 12, 13, and 14, all of which have Interagency Agreement (IAG) deliverable dates in May 1992. For the OU 10 final Phase I RFI/RI Work Plan, the due date is May 1, 1992. Therefore, we would like to have your comments regarding the OU 9 EE work plan in time to prepare similar EE work plans for the additional industrial area OUs. This will help to minimize the time required for the preparation of comments and responses to comments on the EE portion of these RFI/RI work plans.

Questions or concerns regarding this letter and enclosure should be addressed to Bruce Thatcher of my staff at 966-3532.

Sincerely,

James K. Hartman
